

Arseny Dremín

Graphics & Systems Programmer

arseny.dremin@proton.me · github.com/RainCatalyst · freezedice.com · Saarbrücken, Germany

SUMMARY

Game developer with 3+ years of professional experience shipping on PC, console and mobile. I have a strong technical background in realtime systems and computer graphics, and I'm looking to apply that beyond games as well.

WORK EXPERIENCE

Unity Developer @ NDA (Forklift Interactive, Remote) · 2026 – now

- Implementing gameplay systems for a Colony Building game in Unity C#

Godot Developer @ NDA (US-based Publisher, Remote) · 2025 – 2026

- Worked on an unannounced 3D action-adventure title for an internal publisher team
- Responsible for setting up core gameplay systems and project structure

Unity Gameplay Programmer @ Italic Pig (United Kingdom, Remote) · 2022 – 2024

- Shipped [Paleo Pines](#) on PC and console
- Built gameplay systems, automation tools, and custom Unity editor tooling in C#

Developer & Co-founder @ Icedrop Games (Remote) · 2020 – Present

- Co-founded an indie studio; shipped [LOK Digital](#) (PC, Mobile, Switch) and [Constellations](#) (PC, Switch)
- Responsible for most technical aspects - gameplay, real-time shaders (GLSL/HLSL), and VFX in Unity and Godot
- Currently releasing [Ultrapool](#) — a roguelike deckbuilder with 20k+ Steam wishlists

Teaching Assistant @ UdS Graphics Lab (Saarland University) · 2024 – 2025

- Designed assignments and contributed to a custom C++ rendering framework for the Computer Graphics course
- Topics covered: rasterization, ray tracing, physically-based shading, GPU pipeline

Personal Projects

- [Zeus Renderer](#) — C++ path tracer with volumetric rendering and SDF support
 - Full list at freezedice.com
-

TECHNICAL STACK

Game Development: C#/C++, Unity, Godot, Unreal Engine, Houdini

Software Development: Python, .NET (Backend)

Tools: Git, Perforce

EDUCATION

Bachelor's in Computer Science — Saarland University (2023 – 2026)

Vocational Education in Game Development — Futuregames Sweden (2022 – 2023)
