SUMMARY

Game developer with 5 years of professional experience shipping on PC, console and mobile. I have a strong technical background in realtime systems and computer graphics, and I'm looking to apply that beyond games as well.

WORK EXPERIENCE

Unity Developer @ Forklift Interactive 2026 – Now

- Implementing gameplay systems for a Colony Building Game in Unity C#

Godot Developer @ NDA 2025 – 2026

- Worked on an unannounced 3D action-adventure title for an internal publisher team
- Responsible for setting up core gameplay systems and project structure

Unity Gameplay Programmer @ Italic Pig 2022 – 2024

- Shipped Paleo Pines on PC and console
- Built gameplay systems, automation tools, and custom Unity editor tooling in C#

Developer @ Icedrop Games 2020 – Now

- Two-person indie studio I run with a friend; We shipped LOK Digital, Constellations, and Ultrapool
- I'm responsible for gameplay, shaders, and VFX in Unity and Godot
- Ultrapool (pool roguelike, Godot) sold 100k+ copies across all platforms
- LOK Digital is rated Overwhelmingly Positive on Steam (500+ reviews)

Teaching Assistant @ UdS Graphics Lab 2024 – 2025

- Designed assignments and contributed to a custom C++ rendering framework for the Computer Graphics course
- Topics covered: rasterization, ray tracing, physically-based shading, GPU pipeline

EDUCATION

Bachelor in Computer Science — Saarland University (2023 – 2026) **Vocational Education in Game Development** — Futuregames Sweden (2022 – 2023)

TECHNICAL STACK

Game Development: C#, C++, Unity, Godot, Unreal Engine, Houdini
Software Development: Python, .NET (Backend)
Tools: Git, Perforce

PROJECTS

Zeus Renderer — C++ path tracer with volumetric rendering, PBR, and SDF support.
